## Introduction

BIS Australia is a 100% Australian owned company specialising in products for heavy industry, commercial, domestic and leisure use across many applications.

*What if you could exceed your corporate "Environmental and Social Responsibility" targets, make a significant saving in the logistical handling of your products, reduce chemical storage space by 80%, decrease the occupational health and safety issues and help the planet all at the same time!*

## BIS Sachets

We have our core range of water soluble products, either liquid or granules, which are effectively contained within PVOH films until the point of use. We are proud to have become the 'go to' manufacturer / supplier for many leading brands who partner with us to develop, formulate and distribute products packaged within water soluble film. Our drive has always been to ensure a minimal impact on the natural environment, and this is applied to each area of the business.

More ocean, less plastic The plastic pollution problem was recently, quite rightly, described as a planetary crisis by the United Nations. As the public awareness grows around the scale of the issue our products become more relevant to our customers and are a considerable contributor to their Corporate Environmental and Social Responsibility targets. The drastic and immediate reduction of single use plastic is of critical importance to all of us with the environmental challenges we face today.

Our product range of highly advanced, instantly dissolvable, pre-measured system offers a unique suite of benefits and significant, verifiable reductions in the amount of waste and energy your business operation generates, the dissolving sachets colour the water making it immediately obvious where the trigger spray bottle is meant to be used and avoiding potential cross contamination. The dosing is always correct which means that the active ingredients in the sachets will work at the optimum level and costs are fully controlled at site level. There is minimal risk of the concentrate coming into contact with the users' skin or eyes, no manual handling involved in using or moving the products before water is added.

## Technical Support

We design and create our products in house which means we have a wealth of scientific expertise available to support our customers' needs. This could be to develop a product for a specific issue or unusual application, to provide guidance for a cleaning issue, to liaise with your client's experts on your behalf or other support as required.

## Branding and White Label Products

Options are available for customers who wholesale products under their brand, this 'white labelling' is something we are happy to do subject to a volume spend and contract term agreement.

## Training and Product Support

Onsite training is available on the use of the range of products and we are always happy to attend team meetings, visit larger sites and meet with your area management to provide face to face guidance and to go through the benefits of the system. We find that the operatives themselves like the products ease of use and the safer handling of chemicals and like the way the system removes any guesswork, the small packages that are easily stored and the product colours match the coding in place, simple as one sachet per bottle, bucket or machine.

- |   |   |
|---|---|
| ✓ Reduces the risk of OH&S incidents        | ✓ Reduces the storage of dangerous bulk chemicals           |
| ✓ Reduces logistic costs by up to 97%       | ✓ Reduces the risk of chemical spills                       |

| ✓ Eliminates the use of plastic             | ✓ Reduce the cost of cleaning and recycling bulk containers |
| ✓ Reduces heaving lifting of bulk chemicals | ✓ Slashes the cost of procurement                           |
| ✓ Eliminates the need to decant             | ✓ Specced for the use on offshore platforms and mines       |

# ELIMINATE THE USE OF IBC'S, DRUMS AND CONTAINERS

- We have a large range of chemical sachets and work with clients to create bespoke lines.
- Save up to 97% in logistic costs, no more shipping bulk chemicals
- Reduce storage requirements by 80%
- No need to ship empty containers from site
- Reduce the cost of cleaning and recycling bulk containers

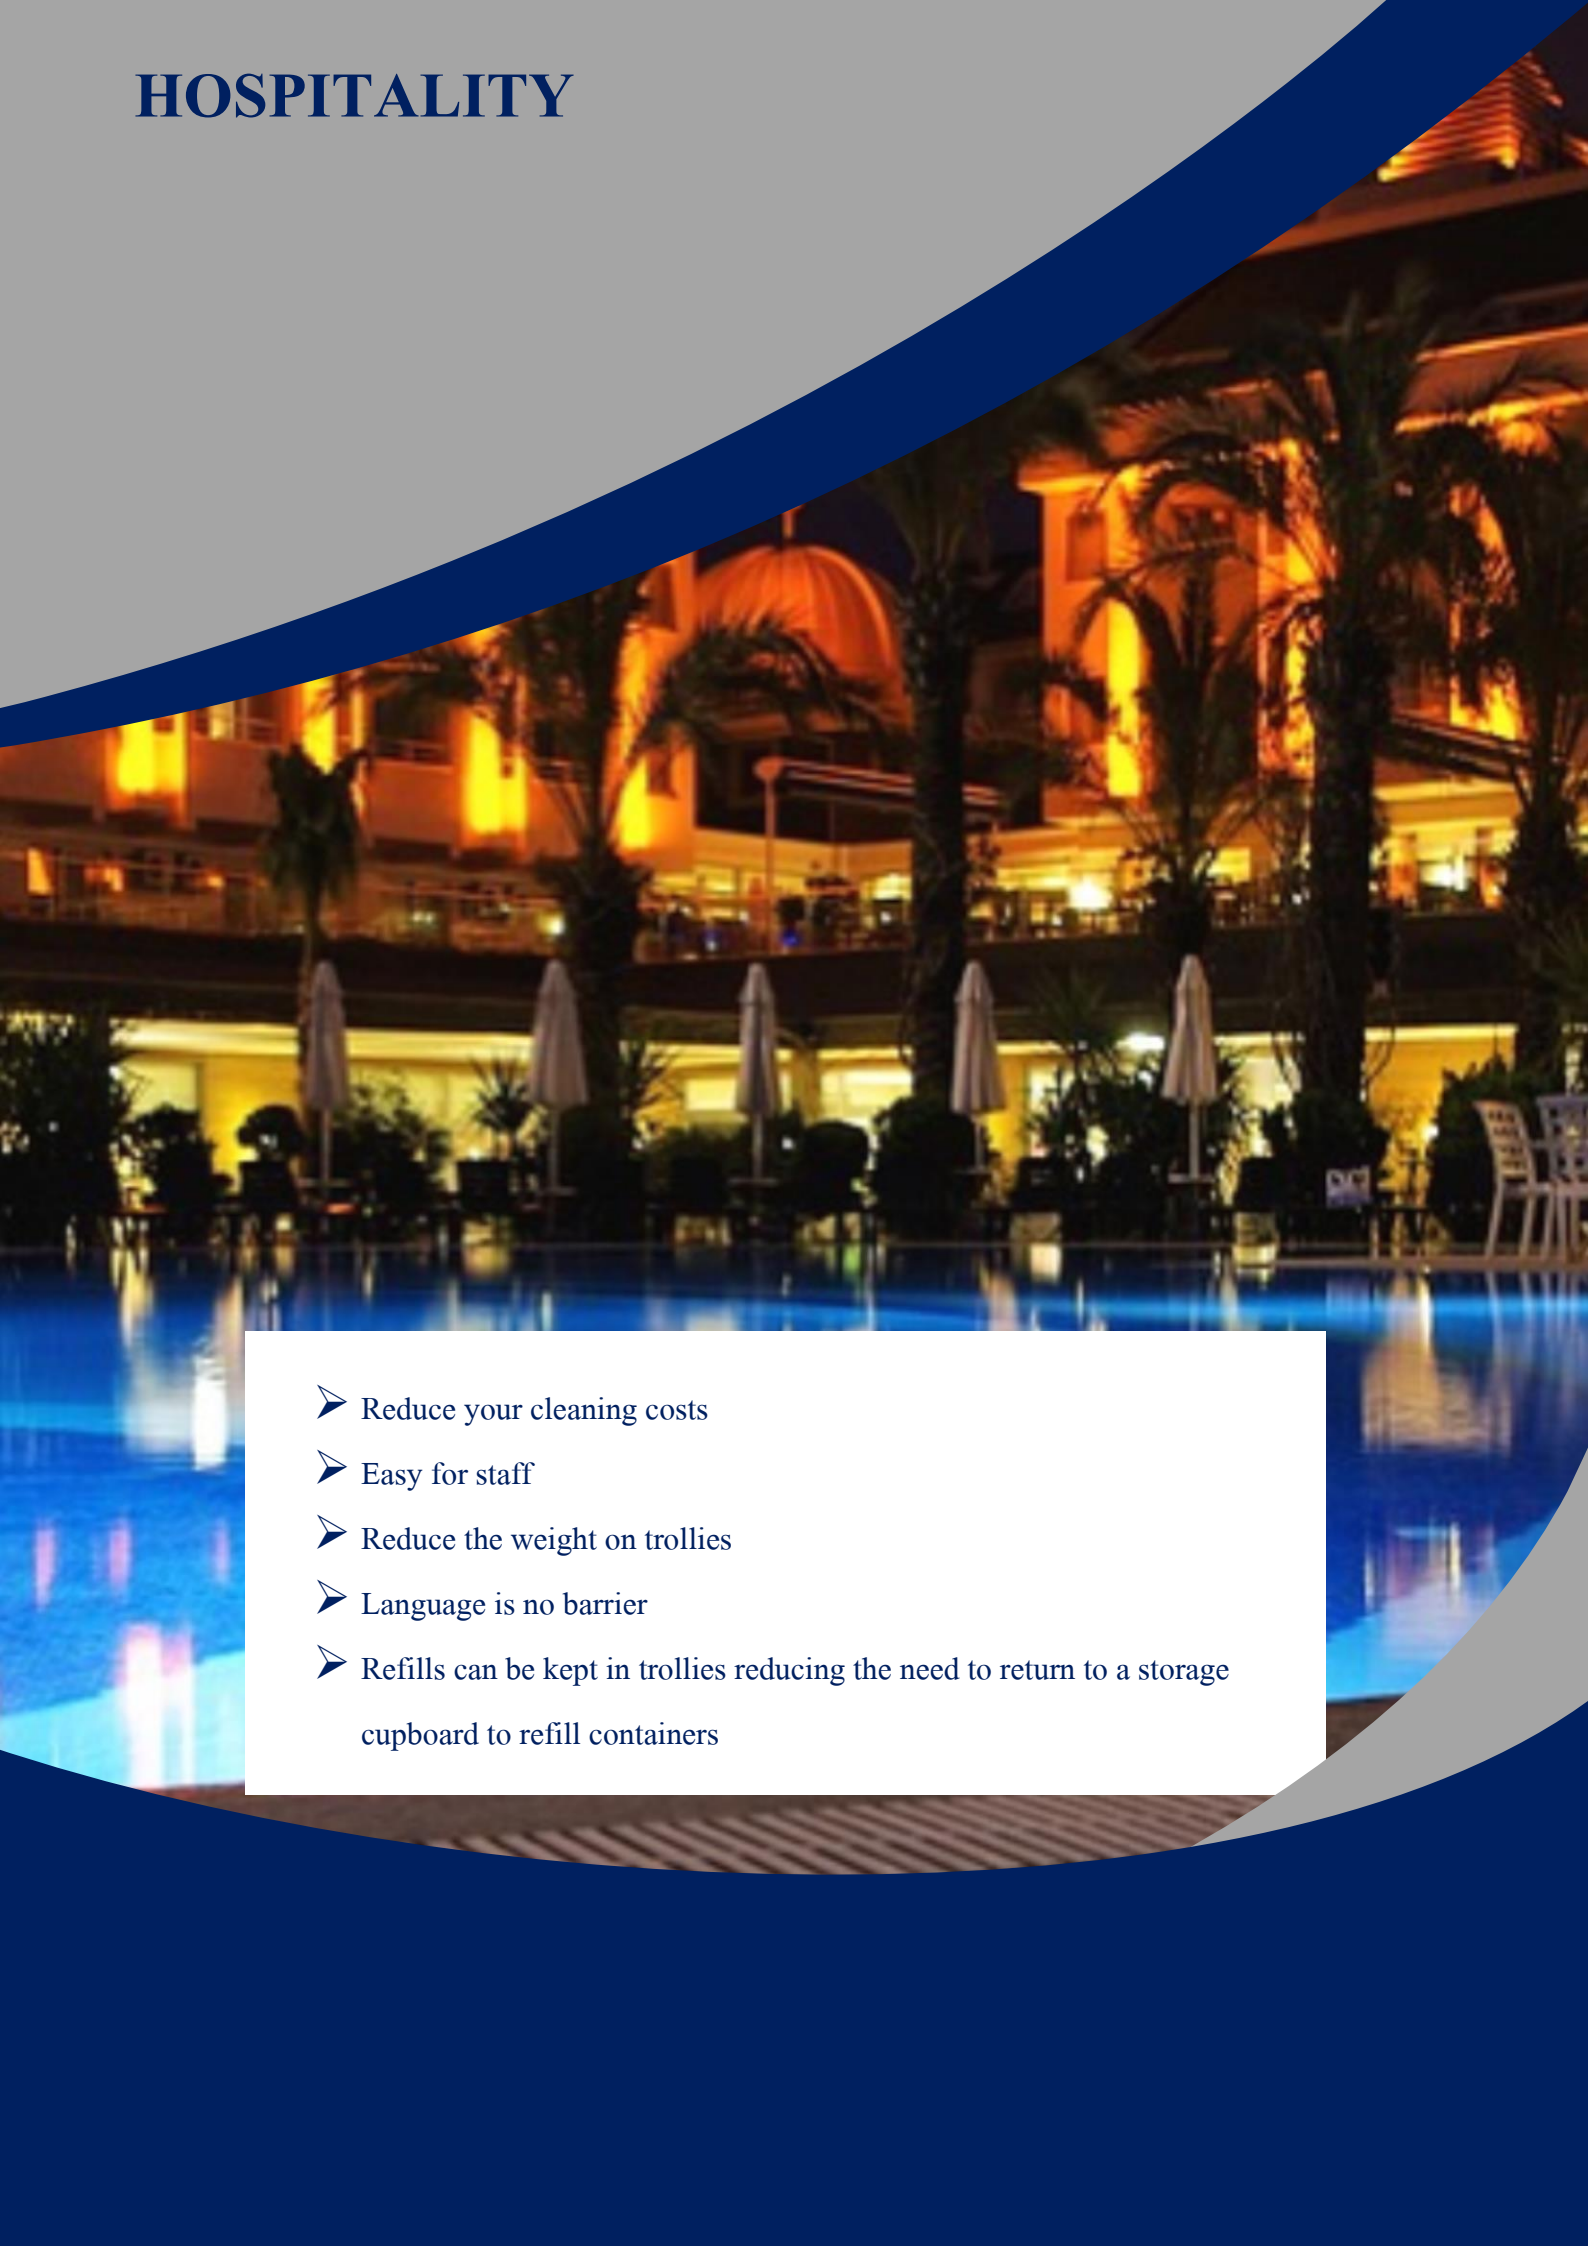

# REDUCE HEALTH AND SAFETY ISSUES

- 
- Each sachet is a premeasured dose dependant on its use.
  - No heavy lifting bulk containers
  - Colour coded
  - No overdosing
  - No spillage
  - Safe handling
  - From 750ml to 60 litres per sachet, from trigger spray bottles to tanks.

# HOSPITALITY

- 
- Reduce your cleaning costs
  - Easy for staff
  - Reduce the weight on trollies
  - Language is no barrier
  - Refills can be kept in trollies reducing the need to return to a storage cupboard to refill containers

# MARINE

- Cost effective
- Colour coded
- No overdosing of chemicals
- No risk of bulk chemical spills
- No need to restock during cruises saving not only cost but international procurement.

# OFFSHORE & MINING

- 
- The cost of transporting products offshore and the storage required, has been an ongoing issue within the industry for years
  - Remote locations cause supply problems
  - Reduce the cost of logistics for the delivery and removal of products
  - Reduce your OH&S issues
  - BIS Australia have a range of chemical sachets from day to day cleaners to industrial degreasers right through to bespoke lines designed specifically for each client

# REDUCE STORAGE

- Storage is often a much-overlooked component when purchasing, as those involved in procurement, may not be fully aware of the specific requirements or limitations of your site.
- If you work offshore you would have sent supplies back to base due to lack of room, a huge cost that could have been avoided.

## Manual Floor Cleaners

### Degreaser Floor Cleaner - 1 sachet = 10L

A powerful detergent and degreaser formulated to clean, degrease and deodorise washable surfaces. Contains strong grease cutting components.

The Fragrance Free is suitable for all food safe surfaces.

### Neutral Floor Cleaner – 1 Sachet = 10L

Designed for the regular cleaning of polished floors and sensitive surfaces.

Effectively cleans without damage to surfaces or reducing the shine on polished floors and gives a feeling of freshness and cleanliness.

### Hard Surface Floor Cleaner – 1 Sachet = 10L

Hard surface cleaner formulated to remove daily buildup of dirt and deoderise

Leaving a long lasting clean fragrance.

The Fragrance Free is suitable for all food safe surfaces.

### Washroom Disinfectant – 1 Sachet = 10L

This non-chlorine washroom disinfectant is an effective decontaminate which works in all areas and against all bacteria. The disinfectant dries quickly to leave surfaces uncontaminated, bright, smear free and smelling of lemon.

## Machine Floor Cleaners

### Neutral Scrubber Drier - 1 sachet = 30L

A low foam detergent for the machine cleaning of floors. Suitable for all Scrubber Drier Machines, designed for the daily cleaning of polished floors and sensitive surfaces, effectively cleans without damage to surfaces or reducing the shine on polished floors and leaves a feeling of freshness.

### Heavy Duty Scrubber Drier - 1 sachet = 30L

Daily cleaning range for all food safe areas, BICs colour coded. A low foam detergent for the machine cleaning of floors. A powerful detergent and degreaser formulated to rapidly remove grease and grime in one pass leaving a long lasting fragrance.

### Carpet Extraction Cleaner – 1 Sachet = 10L

A low foam detergent for the cleaning of carpet.

Emulsifies dirt and stains whilst neutralising odours, leaving a fresh, clean surface.

# Machine Washing Powders

## Laundry Bio Fragranced - 1 sachet = 10Kg

Mainwash detergent specially formulated for use in commercial and on premises laundries and is effective for all water hardness areas. Pleasantly fragranced formulation containing enzymes and fabric safe bleaching agents provides effective cleaning for heavy soiled cotton and polycotton fabrics.

## Laundry Non Bio – 1 Sachet = 10Kg

Mainwash detergent specially formulated for use in commercial and on premises laundries and is effective for all water hardness areas. Pleasantly fragranced formulation containing anti-greying agents and fabric safe bleaching agents provides effective cleaning for heavy duty soiled cotton and polycotton fabrics.

## Automatic Dishwash – 1 Sachet = 5L

Daily cleaning range for all food safe areas, BICs colour coded and fragrance free.

# Trigger Spray

**All Purpose Cleaner - 1 sachet = 750ml**

This all-purpose cleaner is suitable for all surfaces, it dries quickly and leaves a smear free, bright finish which works well with modern office fabrics.

**Degreaser Cleaner – 1 Sachet = 750ml**

Daily cleaning range for all food safe areas, BICs colour coded and fragrance free. Powerful degreaser formulated to clean and degrease all washable surfaces. For use in food safe areas.

**Surface Sanitiser – 1 Sachet = 750ml**

A versatile sanitiser cleaner for use in all food areas where hygiene concerns are of paramount importance. Independently tested to EN1276 giving a 99.9999% germ kill.

**Washroom Cleaner – 1 Sachet = 750ml**

Our range of washroom products are colour coded to the BICS cleaning code and have been developed to provide a high standard of daily cleaning whilst leaving a long lasting pleasant scent. For use on all washroom areas. Removes limescale, daily stains and dirt, as well as reducing odours.

**Disinfectant Detergent - 1 sachet = 750ml**

This non chorine disinfectant is an affective decontaminant against all bacteria. Leaves surfaces bright, smear free and smelling fresh.

### **Washroom Disinfectant – 1 Sachet = 750ml**

Our range of washroom products are colour coded to the BICS cleaning code and have been developed to provide a high standard of daily cleaning whilst leaving a long lasting pleasant scent. For use on all washroom surfaces. Leaves surfaces uncontaminated, smear free and fresh smelling.

### **Glass Cleaner – 1 Sachet = 750ml**

This glass cleaner works with any clean cloth, dries quickly and without residue or fragrance and can be used on any reflective surface.

### **Stainless Steel Cleaner – 1 Sachet = 750ml**

Stainless Steel Cleaner-Blue dries quickly and without residue or fragrance.

### **Biological Washroom - 1 sachet = 750ml**

This washroom cleaner is for use in all areas including walls, doors, ledges, toilets, urinals, basins and showers. The chemical will remove limescale, daily use stains, dirt and reduces odour.

### **Daily Toilet Cleaner – 1 Sachet = 1L**

This daily use cleaner is for internal surfaces of sanitary ware, squeeze the bottle to apply liquid under the rim of the toilet bowl, available in Red or Blue.

## Our vision

*Our vision is to be the leading producer of effective and value-for-money concentrates, packed in water soluble film sachets, made adopting the highest possible ethical standards.*

*“We are excited about showing you the benefits of our systems and demonstrating how we can make a significant contribution to your business and environmental goals.”*

*Shelly Holland  
Director*

*The human race will regret it if we don't act on plastic now'*

*"There are so many simple things we can do, it's absurd to suggest we can do totally without plastic but there are so many areas where we use plastic without a thought."*

*Sir David Attenborough*
