Welcome by Shaun

1. Carole Ann gave the data report.
2. Carole Ann demonstrated the ISO 20400 interactive world map and noted changes required to pass onto the IT team at Rouge.
3. Shaun gave the 5th Anniversary video progress report and requests have gone out to everyone asking them to participate. The editor David Smith will contact each person and arrange a date and time to interview and record.
4. There was a discussion about the ISO 20400 forthcoming review and what we could do prior to this to engage more NSB's around the world. Colin is going to send out questions and at the next steering group meeting we will try to reach a consensus around the responses. Colin also offered to find out if we can ask additional questions ... if we can we will formulate them at the next meeting. Carole Ann and Shaun have volunteered to draft an email to be sent to NSB's encouraging them to be involved in the process.
